³² Drawn from the Increases (prima facie, individual recognition, resettlement) recorded in Table 3 of each year's UNHCR Global Trends statistics.

³³ Until 2007, UNHCR included an "Other" category among its "Increases" in refugee populations for the year. These figures included "population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births". As some of the large increases in refugee populations (e.g. the movement of Iraqis to Syria and Jordan) were recorded in this category, these numbers have been included in this "Recognised and registered" category.

⁴⁸ Figures drawn from public version of *UNHCR Projected Global Resettlement Needs 2012*. Regions as defined by UNHCR.

⁴⁹ Regions as defined by DIAC. Resettlement needs statistics were calculated from the limited circulation version of *UNHCR Projected Global Resettlement Needs 2012* made available to 2011 ATCR participants. The 2010 resettlement figures were calculated from *UNHCR Global Trends 2010* (Table 4, decreases by resettlement) and reflect resettlement only through UNHCR's referral processes.
